0745	MULTICROP	GROUND BREAKER	500 ML
0746	MULTICROP	GROUND BREAKER 1L	1 LT
2077	MULTICROP	GROUND BREAKER HOSE ON	2 LT
0747	MULTICROP	GROUND BREAKER 2.5L	2.5 LT
0748	MULTICROP	GROUND BREAKER 5L	5 LT
0749	MULTICROP	GROUND BREAKER 20L	20 LT

3266	RICHGRO	GYPSUM CLAYBREAKER	5 KG
3267	RICHGRO	GYPSUM CLAYBREAKER	10 KG

Growing Media & Growth Regulators

OASIS® GROWING MEDIA

OASIS® Brand Growing Media are inert and, when received, are free of pathogenic organisms and require no further sterilization.

DIBBLE HOLE USING A TOOL WITH CONICAL SHAPED TIP AND DEPTH STOP. SUGGEST SHARPEN BOLT WITH NUT

- In addition, the product offers the grower these important benefits:
- The elimination of soil/media mixing.
 - Increased productivity through easier handling, bench layout and sticking.
 - Positive stability of cuttings on the bench.
 - Improved uniformity of rooting due to media consistency.
 - Rapid transplant "takeoff".

STICK CUTTING DOWN TO 3/5 DEPTH OF FOAM. USE APPROPRIATE ROOTING HORMONE.

While OASIS® Growing Media provide an excellent start for many crops, each greenhouse and its environment is different.

The suggested cultural needs stated should be evaluated and modified to fit the greenhouse environment and the needs of the crop.

OASIS® Brand Growing Media are rigid, open celled, water absorbing foams specially designed for optimal callus and root formation.

The performance of these media is due, in part, to the unique cell structure which closely resembles the cellular structure of the plant itself. The composition of the foams gives density (weight) for holding power and capillary action for feeding water to inserted cuttings. These media offer the propagator the following advantages:

- Optimal balance of air and water.
- Low cation exchange allows rapid nutrient availability without danger of salt accumulation.
- Stabilized pH.

1308	2CM X 2CM ROOTCUBES	20 X 143
1309	3CM X 3CM ROOTCUBES	20 X 72
1310	4CM X 4CM ROOTCUBES	20 X 42
2554	2040 WEDGES PER CARTON WEDGE MEDIA 9040 UNIVERSAL HOLE	
3591	WEDGE TRAY TO SUIT 9040 MEDIA
