

The World's Finest Secateurs

For over 40 years, Felco has been manufacturing the Original Felco Secateurs, engineered by Swiss craftsmen with such care that the basic elements have not changed. The result is that Felco secateurs are recommended by professionals because they're guaranteed to last.

SECATEURS

FEL-2 ORIGINAL: suitable for all pruning work. Lightweight soft grip handles with cushion stop, sap groove and wire cutting notch. Key to adjust the blade settings.

FEL-4 POPULAR: same as Fel-2 without cushion stop and sap groove. Simple blade adjustment using centre bolt and locking nut.

FEL-5 ECONOMY: sturdy pruner with steel handles to provide good cutting performance. Simple blade adjustment using centre bolt and locking nut.

FEL-6 COMPACT: same as Fel-2 but with short narrow blades for cutting close to the stem. Ideal for small hands, young trees and propagation.

FEL-7 PROFESSIONAL: top of the range, ergonomically designed secateurs. Features a rotating handle which reduces effort and prevents muscle ache. All features of Fel-2

FEL-8 PROFESSIONAL: same as Fel-7 but without a rotating handle.

FEL-9 CLASSIC: Left handed version of Fel-8.

FEL-10 CLASSIC: Left handed version of Fel-7.

FEL-11 SLIM: Same as Fel-2 but with the latest in ergonomic design. Lightweight aluminium handles, wider blade opening, slim blade shape, screw-mounted anvil-blade.

FEL-12 COMPACT: Same as Fel-6 but with a rotating handle which reduces effort and prevents muscle ache.

FEL-13: allows single or two handed pruning. The two extremely long handles provide a 25% reduction in muscular exertion when pruning.

FEL-20, 21 TWO HANDED: solid, forged metal handles, and a key to adjust the blade settings. Suitable for pruning thicker branches. Cushion stop and sap groove.

FELCO 20 length 43cm **FELCO 21** length 63cm

FEL-30 ANVIL: Lightweight anvil secateurs. Cuts branches to 30mm.

FEL-CP MULTIPURPOSE: cuts metal strapping, wood, paper, metal, wire, cardboard and plastic. Practical robust cutter.

FEL-100 - Cut and Hold Pruning Shear developed to meet the needs of cut flower industry professionals.

FEL-400: Universal Pruning Shear with synthetic holster, recommended for occasional use or garden maintenance

SAWS

FEL-600 FOLDING PRUNING SAW: handy pull-stroke saw for clean, precise cutting. 16 cm hard-chromed blade and ergonomic non-slip handle.

FEL-610 PRUNING SAW: pull-stroke action with 33 cm hard-chromed blade, ergonomic non-slip handle, safety sheath and belt loop.

FEL-620 PRUNING SAW: pull-stroke action with 24 cm hard-chromed blade, ergonomic non-slip handle, safety sheath and belt loop.

ACCESSORIES

FEL-900: Fine grain ceramic grinding stone for fine and clean sharpening, retains its shape, and is ideal for sharpening blades on pruning shears and cutters.

FEL-901: Medium grade ceramic stone for the perfect sharpening of blades on all FELCO pruning shears.

FEL-910: LEATHER HOLSTER: belt-through or clip-on, designed for Felco secateurs. Also available in conical shape (FEL-912)

FEL-980: LUBRICANT SPRAY: solvent-free, plant-friendly lubricant for secateur and other garden tools. Cleans, lubricates, and protects.
