

**PRADINES**

**Vertical inclination**  
Compared to a traditional pruner, the PX and PXR downward inclination compensates the wrist bending and allows the hand to remain in a neutral position, which reduces the risk of Carpal tunnel Syndrome.

## PX & PXR ergonomic pruners

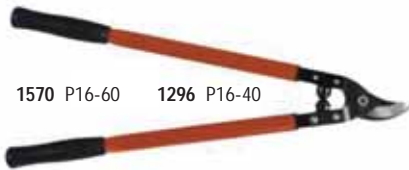

**Lateral inclination**  
Compared to a traditional pruner, the PX and PXR inclination to the left compensates the wrist bending and allows the hand to remain in a neutral position, which improves pressure capacity to be applied on handles and avoids M.S.D. (Musculo Skeletal Disorders).

### The ergo case

Every pruner is sold in an individual case containing:

- One pruner (chosen version) equipped with a medium strength spring.
- Two other springs (low & high strength)
- One flat spanner
- One torx screwdriver
- One cleaning spray bottle (SAP-X 50ml)
- One booklet (recommendations)

1570 P16-60 1296 P16-40

Lopping shear with fully hardened and stamped steel cutting blade and forged counter blade mounted with shear pin to avoid damage to cutting edge. Bypass cutting action. Length: P16-60 60cm (24"). P16-40 40cm.

1567 P121-20

A good quality hobby secateur for all round pruning. Stamped and pressed handles for strength. Fully hardened and stamped zinc coated counter blade. Length: 20cm (8"). Cutting capacity of 20mm.

1603 396-HP

Foldable pruning saw with special XT toothing for a fast cut in hard or dry wood. Strong two-component plastic handle with a very comfortable grip. Safety lock operated folding blade (in open or closed position). Blade length: 19cm.

1569 P1-20 1297 P1-22

Ideal professional secateur for clean accurate pruning. Stamped blades and counter blade with sap groove. Modern lightweight carbon and glass fibre handles. Heavy duty spring prevents clogging and ensures a smooth nonstick action. P1-20 cutting cap. of 20mm. Length: 20cm (8") P1-22 cutting cap. of 25mm. Length: 22cm (8 1/2")

1568 P2-20 1740 P2-22

Ideal professional secateur for heavy duty use. Modern lightweight carbon and glass fibre handles which rotate to reduce effort, prevent fatigue and increase user comfort. Stamped blades and counter blade with sap groove. P2-20 cutting cap. of 20mm. Length: 20cm (8"). P2-22 cutting cap. of 25mm. Length: 22cm (8 1/2")

2336 P51H 3053 P51

High quality shears for professional use, particularly topiary art work. Serrated edge for cutting up to 15mm thick branches. Stamped fully hardened blade. 36 cm long handles for cutting of tall hedges without a ladder. Length: 73cm (29").

3964 PG-01

DIY bypass secateur. Ideal for pruning flowers and small shrubs. Robust and comfortable plastic handles. Spring with captive rubber buffers between handles to reduce shock. Locking device for a one handed operation. Cutting capacity of 20-22mm. Length: 19cm (7,1/2").

1572 4211-14-6T

Swedish made. Classic style pruning saw. Reverse fleam toothing - cuts on pull stroke. Hardpoint toothing. Shaped plywood handle for strength. Length: 35cm (14")
